

MEASURING GUIDE

Customer Name: _____ Telephone: _____

Street Address: _____ City: _____ State: _____ Zip: _____

Mantel Style: _____

The following diagram is a view of the fireplace BEFORE installing the mantel. We will need to know the following measurements in planning our fireplace mantel. Not all measurements may apply to your installation. Facing material refers to the brick or stone surround around your fireplace.

MEASUREMENTS:

_____ A: Facing Material Width

_____ B: Facing Material Height

_____ C: Facing Material Depth

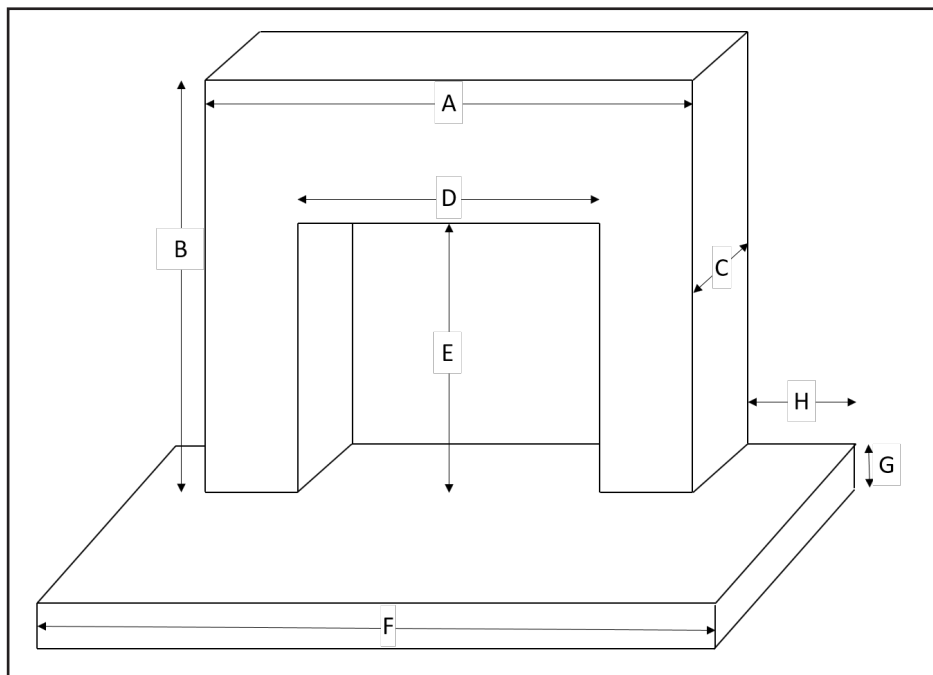

_____ D: Firebox Opening Width

_____ E: Firebox Opening Height

_____ F: Hearth Width

_____ G: Hearth Height

_____ H: Hearth Side Projection

Additionally:

_____ Amount of facing material you'd like exposed each side of opening after installing mantel

_____ Amount of facing material you'd like exposed above opening after installing mantel

_____ Any other size or height restrictions

_____ Desired mantel height (wood to wood)

_____ Desired mantel width (wood to wood)
